LLT-2

Smart Lifter System

The LLT-2 DC Motor Lifter is an advanced lifting device designed for use in agricultural planting environments. It efficiently automates the lifting and lowering of plant supplementary grow lights, facilitating automatic height management during plant growth. It enables efficient suspension of grow lights, sensors, and other equipment. This compact, quiet, and easy-to-install lifter ensures precision, synchronization, and user-friendly operation.

Each lifter can lift up to 132lbs/60kg, and the lifting range is up to 9.2'/2.8m. Lifters can be linked together with automated alignment, and it is also compatible with the LRC-1 Remote and (HCS-2) Hydro-X Pro Controller for enhanced functionality.
