LMA-G

Lighting Group Control Adapter

LMA-G is specially designed to be used with ThinkGrow Model-I and I Plus. The LMA-G needs to be connected with a lighting control adaptor to offer a group control function to the grow lights. Each LMA-G can control one group of lights. / Each light group requires one LMA-G.

Press the button for 3 seconds to enter setting mode, then press the button to switch circularly between Group Control (0-9) and Spectrum Control (0-9).

Note: The setting is automatically saved after releasing the button for 2 seconds.
