4RS-2

Device Station Kit

The 4RS-2 is a universal 4-outlet device module kit that can be directly connected to the Tent-X controller through RJ12 cables. It takes up 4 device modules from the controller and comes with 4 outputs that are defaulted from left to right, including DSTx1, DSHx1, and DSPx2. The power cable is directly connected to the socket, making installation quick and easy. With a total amperage of 15A, users can power multiple devices at once, each output capable of providing up to 15A.
