

LMA-14

Lighting Control Adapter F

TrolMaster's Hydro-X system can control most of the horticultural lighting fixtures sold on the market today. Most light manufacturers provide the ability to control their lighting systems using what known as a low- volt control. That low-volt control can take many forms and communication protocols.TrolMaster makes several types of lighting adapters (LMA units) that allow the Hydro-X tocontrol lights using their low-volt control option.

This LMA-14 lighting adapter is specially designed to control the HID's like Gavita/Nanolux /Luxx/Growers Choice/Illuminar/PL and LEDs like Fluence/Next light/Photobio;

Note: Each LMA-14 can control up to 40 HID lights or 24LEDs. Ad ditional LMA-14 adapters can be used with the SPH-1 to control as many lights as required.

Specifications

LMA-14

Input Voltage

Voltage	12V
---------	-----

Output Voltage

Voltage	0-10V
---------	-------

Maximum Current

Current	0.05A
---------	-------

Package Dimensions

Size	6.14inch / 156mm(L) x 3.27inch / 83mm(W) x 1.18inch / 30mm(H)
------	---

Working Environments

Temperature	32-122°F (0-50°C)
Humidity	≤90%

Package Content

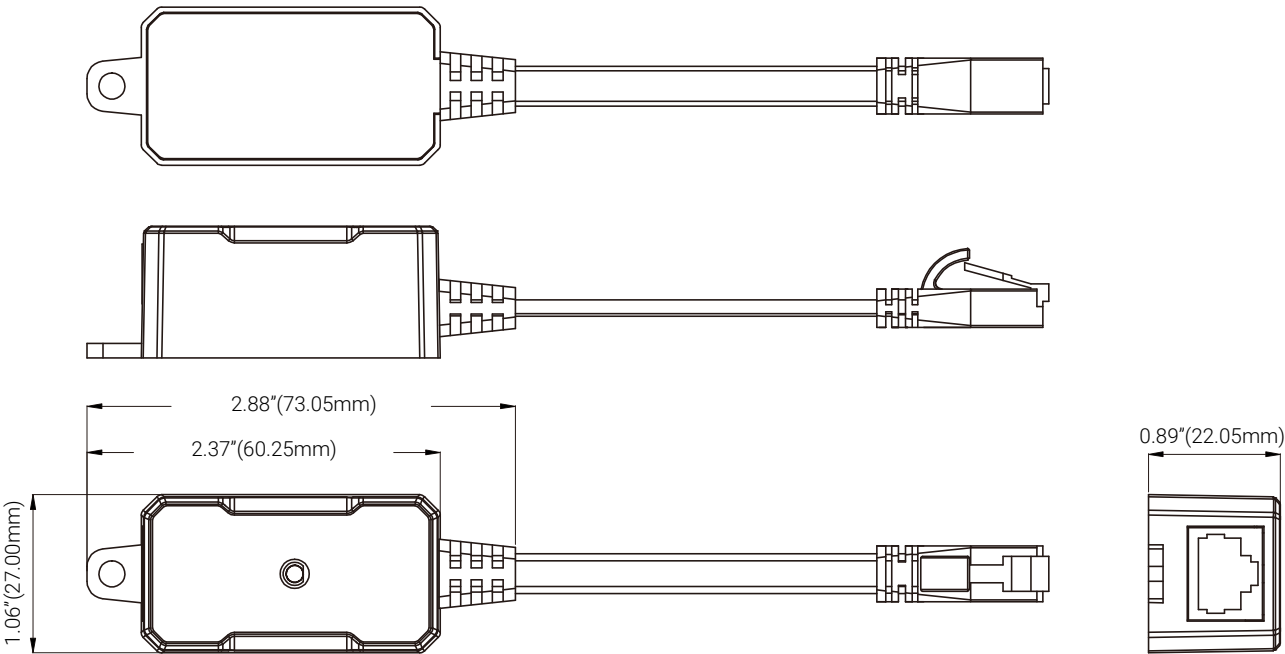

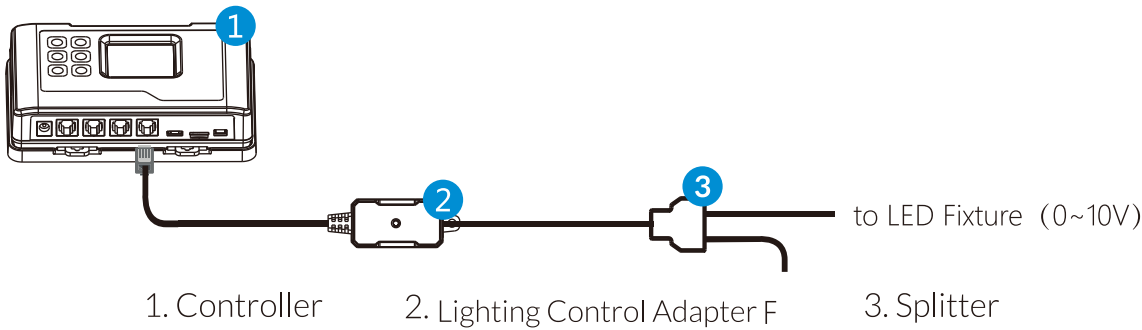

Lighting Control Adapter F (LMA-14)	1pc
-------------------------------------	-----

Gross Weight	2.12oz / 60g
--------------	--------------
