

LMA-15

Lighting Control Adapter DLI

TrolMaster's Hydro-X system can control most of the horticultural lighting fixtures sold on the market today. Most light manufacturers provide the ability to control their lighting systems using what known as a low-volt control. That low-volt control can take many forms and communication protocols. TrolMaster makes several types of lighting adapters (LMA units) that allow the Hydro-X to control lights using their low-volt control option.

This LMA-15 lighting adapter is specially designed to control the DLI fixtures.

Specifications

LMA-15

Input Voltage

Voltage	12V
---------	-----

Output Voltage

Voltage	Digital
---------	---------

Maximum Current

Current	0.2A
---------	------

Package Dimensions

Size	6.14inch / 156mm(L) x 3.27inch / 83mm(W) x 1.18inch / 30mm(H)
Gross Weight	1.74oz / 50g

Working Environments

Temperature	32-122°F (0-50°C)
Humidity	≤90%

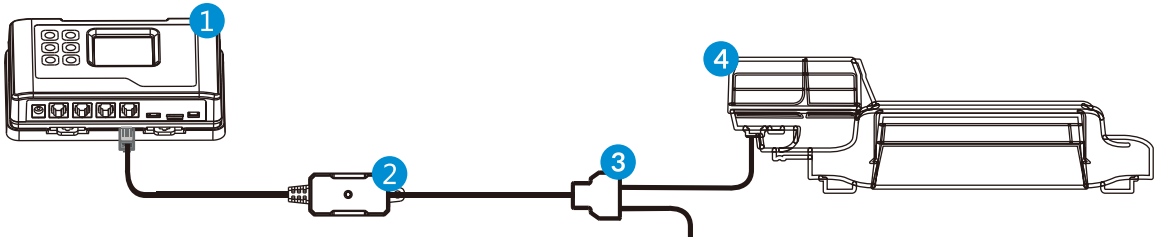

Package Content

Lighting Control Adapter DLI (LMA-15)	1pc
---------------------------------------	-----
